

YOUSSEF DAWOOD

MACHINE LEARNING ENGINEER

Badr City , Cairo • 01069904292 • yuossifdawood@gmail.com

Professional Summary

Machine Learning enthusiast with strong experience in **Python, TensorFlow, and Scikit-learn**. Skilled in building and training **deep learning and predictive models**, data analysis with **Pandas**, and applying machine learning techniques to solve real-world problems.

Skills

- python
- MySQL / PostgreSQL
- Matplotlib / seaborn
- Django
- Docker
- English
- TensorFlow
- torch
- Pandas
- Flask
- Git / GitHub
- Soft skills

Experience

Trainee

Arab International Optronics (AIO) – Cairo, Egypt

- Worked with the backend team to understand **database fundamentals and data storage concepts**.
- Practiced basic database operations and data handling.
- Gained exposure to **backend systems and data workflows**.

AI Trainee

Information Technology Institute (ITI) – Online

- Participated in an intensive online training program covering advanced topics in Artificial Intelligence.
- Gained in-depth knowledge in various fields of AI, including Machine Learning and Deep Learning.
- Completed coursework and participated exercises on designing, implementing and optimizing AI models.

Developed AI Personal Assistant App – Mobile Application

10/2023 – 05/2024

- We developed an AI personal assistant App designed for mobile platforms, this application features a sophisticated chatbot powered by pretrained NLP model, enabling it to understand and respond to user queries effectively, the app also includes advanced image classification capabilities , allowing users to identify and categorize images.

Healthcare – website

- Developed a **web application** that provides personalized diet and nutrition recommendations based on user data
- Implemented a **calorie calculator** and user input system to collect health and dietary information
- Performed **data preprocessing and analysis using Python and Pandas** to generate tailored meal suggestions
- Built and **deployed the application using Flask®**
- Designed a **user-friendly interface** for easy access to personalized nutrition plans

Education

Egyptian Russian University | Cairo
